

2000 Summary

The Chancellor's Senior Survey on the Undergraduate Experience at UIUC

In 1989, a task force appointed by the Chancellor created a questionnaire to be administered to all graduating seniors at UIUC. The results of the survey, the Chancellor said, “will be useful in responding to requests for information on how our students feel about the educational experience they have had as undergraduates here and in identifying problems on campus which need our attention.” The survey was administered in 1990 through 1993 and from 1996 to the present year.

Beginning in 1998 the Senior Survey has been administered electronically. In March 2000 an e-mail message regarding the Senior Survey was sent to all seniors on the May graduation list. The e-mail message from the Chancellor asked students to complete the survey posted on a university Web-site. Ten days following the initial e-mail message a follow-up message was sent reminding students to complete the survey. Survey respondents were entered into a lottery with a single prize of two free airline tickets valued at \$500 each. Of these 4,390 seniors, 2,281, or approximately 52%, responded. Similar to past years, the respondents were roughly representative of the graduating class by gender, ethnic origin, and academic affiliation as indicated below.

Percentages		
	Respondents	All Seniors
Gender		
Female	53.8	50.1
Male	46.2	49.0
Ethnic Origin		
Caucasian	79.5	77.6
Hispanic/Latino	2.4	3.5
African-American	3.4	5.8
Asian-American	12.1	12.8
Native American	.4	.2
Unknown	2.7	0.0
College of Graduation		
ACES	6.9	8.8
Applied Life Studies	5.0	5.1
CBA	22.3	15.8

Education	1.0	2.6
Engineering	18.4	14.8
Fine & Applied Arts	7.0	7.2
Liberal Arts & Sciences	34.3	39.7
Veterinary Medicine	.3	1.6

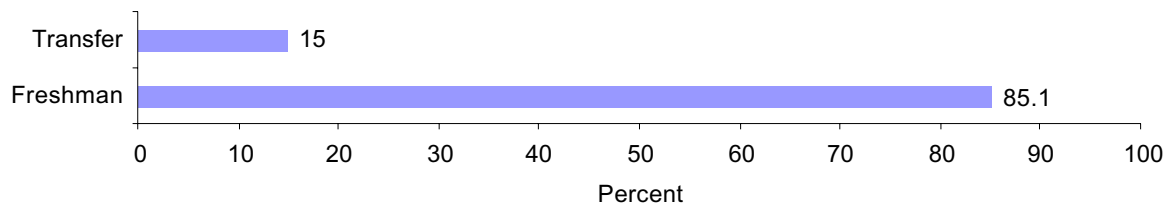

Care should be taken in interpreting the results of the survey because the small number of respondents in some sub-categories makes the results statistically unreliable. This summary presents highlights of the data following the general order of the survey. A “Comparison to Previous Years” section at the end of the summary presents yearly comparisons of survey results.

Demographics

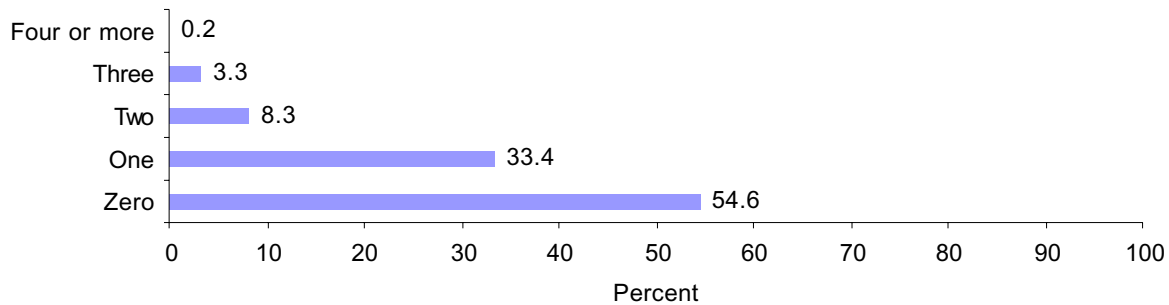

Survey respondents present a picture of a very traditional student body, with large majorities enrolling as freshmen and completing a bachelor's degree in eight semesters at age 21 or 22. The respondents were 79% Caucasian and 93% Illinois residents. Approximately 8% more females than males responded to the survey.

Academically, 72% of the respondents self-assessed their grade-point average as between 2.75 and 3.75. Approximately 50% of the students never changed their major, while another 33% changed majors once. Approximately 35% of the respondents reported working each semester part-time while another 42% reported working "occasionally" part-time. Approximately 65% of the respondents worked during the summer.

Satisfaction with broad aspects of the undergraduate experience

The survey asked about senior satisfaction in three broad categories, and then, in a brief fourth section, about the overall experience at UIUC. Students were asked to choose from a five-point Likert scale, ranging from one for lowest satisfaction to five for highest satisfaction. The broad categories were:

- **Teaching and educational environment** included 20 questions on the quality of teaching and facilities, access to courses and faculty, class size, and teachers' evaluation of students.
- **Campus environment** included 13 questions on racism, sexism, welcome, help, and atmosphere.
- **Self-assessment of entering and exiting abilities** required students to assess their entering and exiting competency levels in 20 abilities, including writing, speaking, organizing time, and using technology.
- **Overall undergraduate experience** included four questions: satisfaction with the overall educational experience at UIUC, current attitude toward UIUC, attitude toward the respondent's major, and what the respondent would do given the chance to start all over again.

The categories were an organizational device, making it inadvisable to seek generalizations, such as "students were satisfied *overall* with the campus environment." Instead, the summary will attempt to point out noteworthy responses to individual questions. Before going into the categories individually, the average ratings for all teaching, educational, and campus items are presented below.

Teaching and educational environment

	Mean	Frequency %				
		<i>Low</i>		<i>High</i>		
		<i>1</i>	<i>2</i>	<i>3</i>	<i>4</i>	<i>5</i>
1. Quality of teaching by faculty in your major	3.9	2	6	17	49	26
2. Quality of teaching by faculty outside your major	3.6	0	6	36	50	7
3. Quality of teaching by TAs	3.4	2	12	41	37	7
4. Quality of laboratories and classrooms	3.4	3	13	36	39	9
5. Quality of academic program advising and information	3.1	12	21	28	26	12
6. Quality of career advising and information	3.1	10	19	31	27	12
7. Access to courses and course sections in major	3.9	4	8	17	38	32
8. Access to elective courses and course sections	3.3	6	16	31	34	13
9. Process of student evaluation of teaching	3.2	7	15	37	31	9
10. Class size at the 100 and 200 course level	3.2	5	18	38	30	9
11. Class size at the 300 course level	4.1	2	4	12	43	39
12. Overall educational philosophy of your major	3.8	3	8	20	43	25
13. Fairness of student performance evaluation procedures	3.8	1	5	24	51	19
14. Usefulness of student evaluation procedures assisting students to learn	3.3	4	14	38	34	10
15. Quantity of faculty office hours	3.7	2	8	27	40	22
16. Faculty members' presence during posted office hours	4.0	1	4	19	42	33
17. Accessibility of faculty in general	3.9	2	6	21	45	26
18. Communication between faculty and students regarding student needs and concerns	3.5	4	12	27	40	18

For all respondents, the items with the highest satisfaction ratings in this section were:

- 4.1:** Class size at the 300 course level
- 4.0:** Faculty members' presence during posted office hours
- 3.9:** Access to courses and course sections in major
- 3.9:** Quality of teaching by faculty in your major
- 3.9:** Accessibility of faculty in general

For all respondents, the items with the lowest satisfaction ratings in this section were:

- 3.1:** Quality of academic program advising and information
- 3.1:** Quality of career advising and information
- 3.2:** Class size at the 100 and 200 course level
- 3.2:** Process of student evaluation of teaching

26b. The University appropriately addresses problems of sexism	3.5	5	10	30	34	21	
27. You felt you were welcome at UIUC	4.1	2	4	15	36	43	
28. You had someone (University employee) that you could go to for help	3.4	11	13	23	24	28	
29. The "University" cared about you	2.7	18	23	33	19	7	
30. You felt safe on campus	3.7	3	10	26	41	20	

For all respondents, the items with the highest satisfaction ratings in this section were:

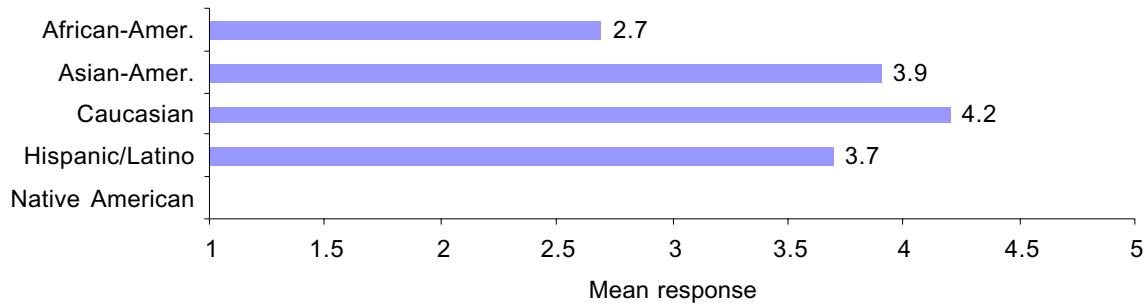

- 4.4:** Campus recreation (e.g., IMPE, "WIMPE," Ice Arena, Illini Union)
- 4.1:** You felt that you were welcome at UIUC
- 4.1:** The classroom environment was free from racist behavior

For all respondents, the items with the lowest satisfaction ratings in this section were:

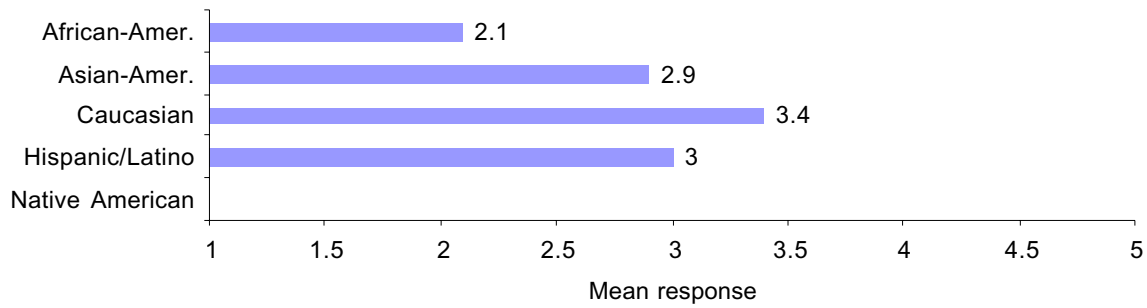

- 2.7:** The "University" cared about you
- 3.3:** The campus environment was free from racism

There was a noticeable difference between the ratings on the items asking if the classroom was free from racist behavior (4.1) and if the campus was free from racism (3.3). The graphs below show some of the variation by ethnic background on these questions. (Please note, as previously indicated, that survey respondents underrepresented African-American and Hispanic/Latino respondents. The number of respondents by ethnic origin is 1,792 Caucasian, 273 Asian-American, 76 African-American, 53 Hispanic/Latino, and one Native American.)

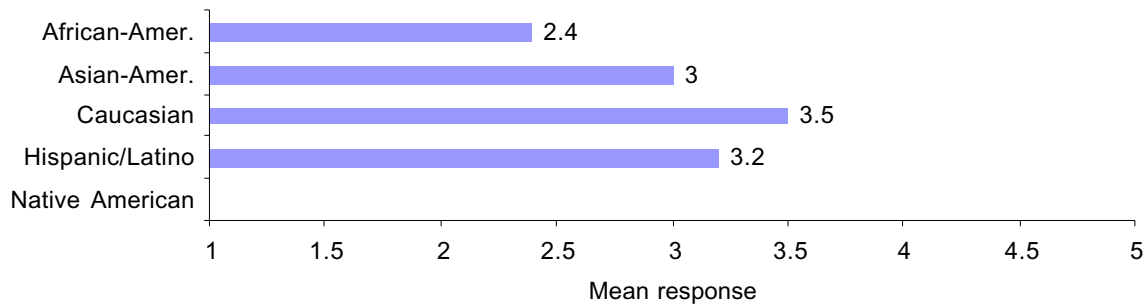

24a. The classroom environment was free from racist behavior.

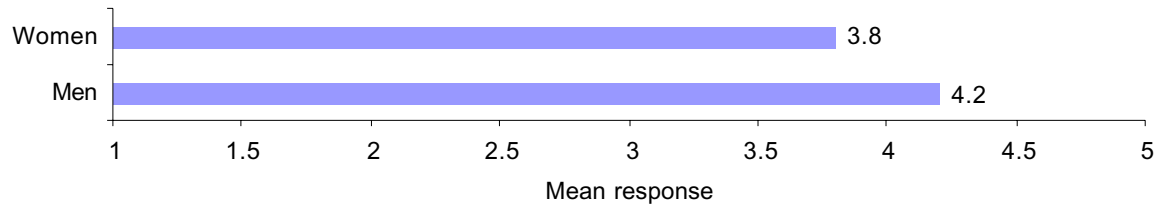

25a. The campus environment was free from racism.

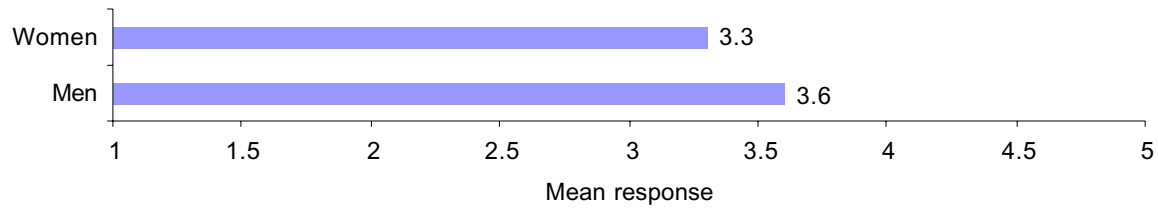

26a. The University appropriately addresses problems of racism.

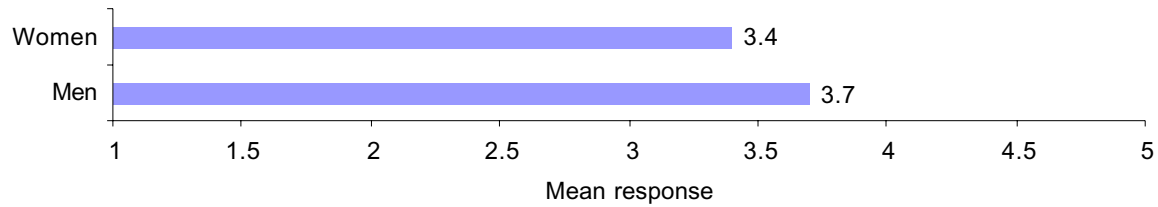

24b. The classroom environment was free from sexist behavior.

25b. The campus environment was free from sexism.

26b. The University appropriately addresses problems of sexism.

The respondents reported increases in their entering competency levels for all of the abilities listed except one (“use another language”). The abilities with the greatest difference between entering and exiting competency levels were:

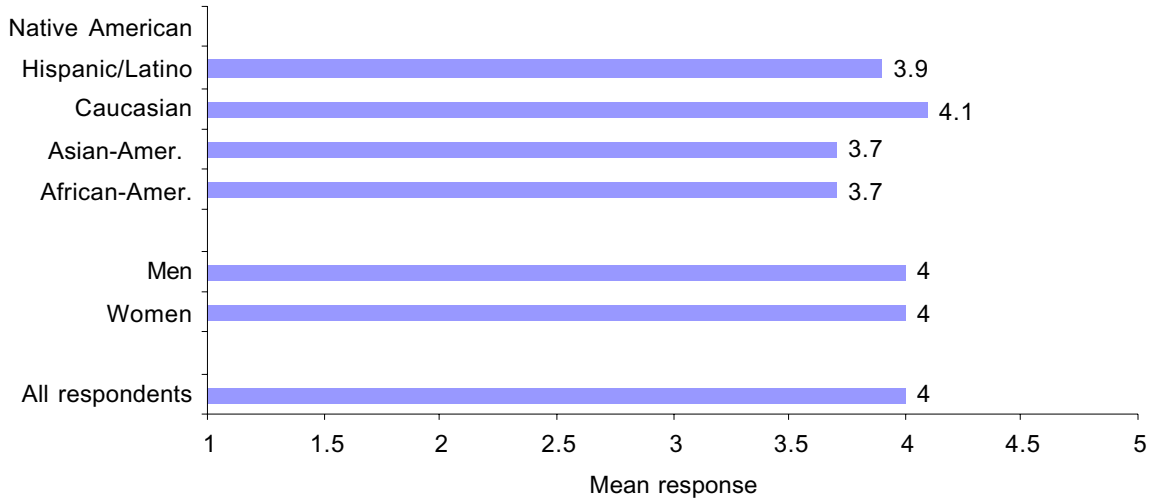

- 1.6 Effectively use technology (e.g., computers, high tech equipment)
- 1.0 Locate, screen, and organize information
- 1.0 Draw conclusions after weighing evidence, facts, and ideas
- .9 Speak effectively
- .9 Learn on my own
- .9 Understand and appreciate cultural and ethnic differences

COMPARISON TO PREVIOUS YEAR - Demographics of Respondents

This section of the report will compare 2000 Senior Survey results to responses recorded in 1990, 1996, and 1998. The 52% response rate in 2000 was the highest ever for the survey. This year there were slightly fewer African-American and Latino/Hispanic respondents than in past years. Following are some additional differences among respondents over time.

Satisfaction with broad aspects of the undergraduate experience

Following is a listing of item mean scores for common items administered in previous years. Since 1990 there is an upward trend for many of the items. Twenty-six items were rated higher in 2000 than in 1990, while only one item was rated lower (Item #8).

Student Ratings of Entering and Exiting Abilities

The students' ratings of their exiting abilities are significantly higher than their entering ratings in all years the items were used. The average rating increase across abilities was +.8 in 2000, which was about the same as previous years. Three abilities (underlined) reported entering/exiting gains of at least one rating point.

Satisfaction with the campus environment

The tables below show response pattern changes for respondents with different ethnic backgrounds to several questions regarding racism on campus and in the classroom. Similar to past years, African-American students continue to give the lowest ratings.

24a. The classroom environment was free from racist behavior:

	<u>2000</u>	<u>1999</u>	<u>1998</u>	<u>1997</u>	<u>1996</u>	<u>1990</u>
