Chancellor's Senior Survey
Dashboard

The Chancellor's Senior Surveys on the Undergraduate Experience at UIUC

In 1989, a taskforce appointed by the Chancellor created a questionnaire to be administered to all graduating seniors at UIUC. The results of the survey, the Chancellor said, "will be useful in responding to requests for information on how our students feel about the educational experience they have had as undergraduates here and in identifying problems on campus which need our attention." The survey was administered each year from 1990 to 1993. Due to the consistency of results the survey was not administered again until 1996. The 1996 survey was modified to include a section of items asking students to assess their entering and exiting abilities. Due to the usefulness of this new section for campus initiatives involved in the assessment of student outcomes, the campus decided to restart annual administrations of the survey. The survey was offered through 2012. During the 2015-2016 academic year, a committee redesigned this long-standing survey to increase its effectiveness and usefulness. During the 2016-2017 academic year, the revised survey was administered for the first time.

[Illinois Chancellor's Senior Survey Questionnaire](#)

[Senior Survey Dashboard](#) Restricted to full-time faculty and staff.

The Senior Survey Dashboard provides an interactive way for faculty and staff to review the survey results, allowing for the units to look at results by college, department, international student status, gender, and race/ethnicity. You cannot view categories when fewer than 10 responses are available.

This is the **Chancellor's Senior Survey (CSS) homepage**, which is located on the Division of Management Information (DMI) website (<https://secure.dmi.illinois.edu/SeniorSurvey/>). The **Senior Survey Dashboard** can be accessed from the CSS homepage or directly via the following link: <https://secure.dmi.illinois.edu/SeniorSurvey/Home/Dashboard>.

All Illinois faculty and staff with a **valid NetID** have access to the Senior Survey Dashboard.

The **survey questionnaire**, along with current and past **summary reports** can also be found on the Chancellor's Senior Survey homepage.

Senior Survey Dashboard User Agreement

Welcome to the Senior Survey Data Portal. This resource provides instant access to data visualizations that allow for tailored, aggregated data queries on senior-year responses to the Senior Survey.

Please use Chrome, Firefox, or Safari to view this data portal. If you are using Safari, you will need to enable cookies on your device. For information on how to do this, please visit [Apple Support](#).

Due to the sensitive nature of data provided here, we begin with some guidelines...

Senior Survey has human subjects review and approval (protocol #17116). All use of data must be conducted within the protections and structures set within that documentation. As such, we ask you to review this user agreement, and indicate your acceptance and agreement on each item before proceeding to the other sections of the website.

1. The Senior Survey Dashboards are intended only for use by University of Illinois at Urbana-Champaign campus, college, and department leadership.

Do not share your password or your account access with others.

2. The purpose of the Senior Survey Dashboards is to provide visualizations for the Senior Survey results that may be used to better understand and improve the student experience. This information may be used for program review, accreditation, program improvement and communication with key campus stakeholders.

All findings will be presented in aggregate. Data will only be provided when a minimum number of 10 survey responses are available in order to protect the confidentiality of survey respondents. You are welcome to filter the charts, hover over different chart elements to get more detail, but please note the response rates (number of respondents compared to number of graduates) for each of the chart elements. Be certain you are telling responsible stories with the data. If you need assistance interpreting your results, reach out to the Division of Management Information (dmi@illinois.edu). We're happy to help.

3. Data or information obtained via the Senior Survey Dashboards CANNOT be used for research purposes.

It is possible to use data and information from the Senior Survey Dashboards for research purposes; however, prior approval is required with an amendment to the Senior Survey IRB and review by the Office for the Protection of Research Subjects. Inquiries about potential research projects must be directed to the Senior Survey RPI, Staci Provezis, at sprovez2@illinois.edu. Please note that our team is small and serves the entire campus. The number of research inquiries that we can handle is limited.

4. No individuals should respond to FOIA or similar direct requests from external sources using the data or information from the Senior Survey dashboards.

All Freedom of Information Act (FOIA) requests must be made to the Office of University Relations (<https://www.uillinois.edu/foia>). These requests are then forwarded to the Office of the Provost, which is well equipped to respond.

If an external source (e.g., employer, government representative) requests information on the Senior survey beyond your regular available data, program improvement, or accreditation responsibilities, please direct them to the Division of Management Information at dmi@illinois.edu who can provide assistance.

After logging into the Senior Survey Dashboard, users are presented with the “**Senior Survey Dashboard User Agreement**”. The user agreement outlines four **important guidelines regarding the use of dashboard data**. Please read and accept the user agreement before proceeding.
